

Alexandria Gazette.

TUESDAY EVENING, AUG. 22, 1893.

LOCAL INTELLIGENCE.

Sun rises to-morrow at 5:21; sun sets at 6:29. High water 4:22 a. m. and 4:54 p. m.

WEATHER PROBABILITIES.—For this section northwesterly wind, becoming variable with fair weather.

MEMORIAL OF FATHER O'KANE.—The Catholic Lyceum last night paid a memorial tribute to the late Father O'Kane at their hall. President Rice presided and Rev. Fathers Cutler and Tierney were on the stand where a speaking portrait of the deceased pastor was exhibited. Mr. Wm. F. Carne in a memorial address eulogized Father O'Kane's devotion to duty and illustrated the aim of his life by many examples. He concluded by saying: "It is said by those who misunderstand us that we are priest-ridden; that we have no freedom of thought. It is true that we are finite; it is the infinite only that is impossible to us. The walls that bar our way are the walls of the universe. More material close to the earth they broaden and brighten as they rise, ever widening and growing in splendor, until on their topmost peak of light the shining angels stand." After quoting from an address of Bishop Spaulding before the Chicago Congress of Representative Youth, the words "Be thyself not another. Be not a machine to utter again what others have said, be an aboriginal soul, alive in God. We should we think it desirable to make all men alike since the more truly they are alive the greater their uniqueness becomes," he said to the young people: "You cannot, you need not attempt to break your environment; yet you may be superior to circumstances. The bat, blinded by light, dashes helplessly against the impeding wall, but the skylark rises and sings at a height where no impediment bars its upward way. When discontent annoys you do not roam but rise. Above all

To thine own self be true;
And it must follow, as the night the day,
Thou shalt not then be false to any man."

At the close of the address little Sally Harlow came upon the stand and drew three lots, the last of which awarded the portrait to Mr. Thomas Burroughs. A request was made for Father O'Kane at St. Mary's church this morning was largely attended.

ANGELERS AND HARD TIMES.—About as correct a thermometer of the depression of trade is the number of anglers who are found squatted in secluded places on the docks of the city. Both bridges over Hunting creek are utilized by numbers daily, while the Dyke at tracks equally as many more. Angling is not good now-a-days in this vicinity, for the reason that the lower river is completely blockaded with stake nets. So much so that but few of the finny tribe can escape them and get up the river far enough to be caught at Alexandria. In the olden time those fond of angling could anchor a boat off Jones' Point and in an hour or two could catch from 50 to 100 good-sized white perch. It is not so now, and it often happens that those who cast lines hereabouts are rewarded about as much as if they angled in a cistern.

POLICE REPORT.—Last night was clear and mild. There were neither prisoners nor lodges at the station house.

Justice Thompson this morning disposed of the following cases:

Three small boys for stealing fruit from the yard of a neighbor, were discharged with the understanding that their parents would correct them.

A white woman charged by a colored woman with disorderly conduct, was dismissed, it being apparent that the plaintiff incited the trouble.

John Cole charged by Catherine Timbers, both colored, with assault, was dismissed, the charge not having been sustained.

FRUIT THIEVES.—Numbers of people in the city have of late been considerably annoyed by youngsters who scale faces and pull fruit (often unripe) from trees. Complaint is made to the police daily of these depredations. This morning three youngsters were at the station house charged with stripping a gentleman's pear tree, and a week or so ago seven or eight small boys were arrested for a similar offence. In both cases the accused were dismissed with reprimands, but should others be caught it will be necessary to inflict more than a reprimand in order that an example may be set.

COLORADO DEMOCRATIC CLUB.—The colored democratic club of this city met last week with John B. Montgomery, president and Rudolph Thompson, secretary. The club passed resolutions endorsing the democratic State ticket, and the president and secretary were authorized to issue an address to the colored voters of Virginia, urging them to support it. J. B. Montgomery was recommended by the club for democratic recognition and the club asks the removal from office of Olive J. Webster.

THE VULCANIZING WORKS.—Workmen are still engaged in putting machinery, &c., into the Haskin Vulcanizing Works at the foot of Wolfe street. The appliances which are being introduced into the works are of the latest designs. The company, it is said, will begin operations in the fall.

FELL THROUGH A TRAP DOOR.—William Hancock, son of Mr. W. H. Hancock, proprietor of the Braddock House, fell through a trap door in the Western Union Telegraph building Sunday, and was severely though not dangerously hurt. He is confined to his bed by his injuries.

PICNIC AT WATERLOO.—Many colored people from this city and neighborhood went on a picnic to Waterloo, on the Washington Southern Railway, yesterday. The festivities were kept up until a late hour last night, and some of the participants did not return home until this morning.

LICENSE OBTAINED.—A license for sale of spirituous and malt liquors at Riverside Park, on the Mount Vernon Railroad, was obtained at Fairfax Courthouse yesterday. A handsome bar room is to be erected on the grounds at an early day.

CREDITABLE WORK.—The new channel through which the water to supply Alexandria will pass in future instead of via Taylor's run as formerly, was devised and superintended by Mr. D. J. Howell, and is a creditable specimen of his engineering skill.

PERSONAL.—Dr. A. F. Cox has returned from a two weeks' trip to Chicago.

Messrs. E. L. Coakley and John Painter have gone to St. George's Island for a ten days' stay.

The Saratoga correspondent of the New York Herald says: "One of the distinguished married belles at the Charendon is Mrs. Lycurgus Edward Uhler, of Alexandria, Va. She is a tall and queenly lady and has the proverbial manners of the aristocratic Southron."

Mrs. C. C. Carlin, who has been on a visit to Fauquier county has returned home.

Mr. Henry Wildt is to spend a week or so at Atlantic City.

Miss Lizzie Butler has returned home after a four weeks' visit to relatives in Prince William and Fauquier counties.

After a pleasant visit at Arlington and Falls Church, Miss Maude Roache is again at home.

Senator John W. Daniel was in the city yesterday.

Miss Hattie Pitts and her sister, Miss Grace, have returned home after a pleasant visit to relatives in Frederick county.

Mr. Frank English, who has been visiting in Loudoun county, has returned home.

Mr. C. W. Ashby has returned from Atlanta.

Mr. E. A. Green is visiting in Chattanooga.

Mrs. Klipstein is visiting her daughter in Baltimore.

Mrs. E. E. Mahoney and daughter have returned from a pleasant trip through northern Virginia.

Miss Margaret Rollins is visiting relatives at Aldie, Loudoun county.

A COMPLAINT.—Considerable complaint is made against the officers of the Norfolk steamer Washington for running their boat by the city last night at a high rate of speed. Small vessels lying in the northern docks of the city were tossed against the wharves and some injured. A vessel belonging to Mr. Theophilus Ballenger which was in a dock near Fishtown, was considerably damaged. The deck frame was loosened and other portions of the boat much injured. In some cases lines were snapped and vessels almost made to mount the wharves. The wife and children of the captain of a schooner lying in the dock were seated in the cabin at the time the steamer passed and when the vessel began to careen and plunge they became so much alarmed that they ran on deck for safety, supposing the vessel was about to capsize.

RESIGNATION.—Mr. W. S. Noble, who for several months past has been manager of the Mount Vernon Electric Railway, has resigned his position, and will leave this city in a few days to resume his old place as an officer of the Lehigh Valley Railroad. Mr. Noble since his sojourn in our midst has made many acquaintances, each of whom has found him an affable gentleman, and one whom all regret to see leave the city. He carries with him the sincere good wishes of a multitude of his Alexandria friends. There will be no successor to Mr. Noble appointed at present, and in the meantime Mr. D. W. Holden, superintendent, will have added to his responsibilities those relinquished by Mr. Noble.

RAT KILLING.—Eight rats which had been caught in a neighboring store last night were liberated one at a time in front of the Columbia engine house this morning, but before they traveled far Mr. Wm. Wood's dog had them by the back of the neck and shook off their mortal coils instantly. A number of people stopped and witnessed the performance. Nearly every morning a rat killing scene is enacted at the same place, in which the same terrier takes the chief part.

A TERRIBLE AFFICTION.—For the past day or two a middle-aged sunburnt woman, of unkempt appearance, bearing a strong resemblance to a gypsy, has been knocking from door to door soliciting alms. When housewives answer her summons, in the twinkling of an eye she opens her dress at the throat and discloses a ponderous goitre (wen). She is supposed to be a member of the itinerant band encamped a short distance out of the city.

WANT THE TELEPHONES AGAIN.—The different fire companies of the city have petitioned the Fire Wardens to replace the telephones in their houses. The companies consented to the 'phones being removed under the impression that the city was about to purchase a fire alarm. It is said that had the telephones been in the houses on Saturday the apparatus could have been placed at the scene of the fire five minutes earlier than was the case.

ASSIGNMENT.—Isaac S. Lloyd, who for several years past has conducted a china, glass and household utensil store on King street, has made an assignment to I. C. O'Neal for the benefit of his creditors. Samuel English, Calvin Butts, I. W. Lloyd, F. P. May & Co., Mathew Ingram & Co., and James H. Beach are named as preferred creditors. The scheduled indebtedness amounts to about one thousand dollars.

EXCURSION.—Talisman Lodge of Good Templars gave an excursion to Riverside Park to-day. Comparatively few went on the early cars while in the evening numbers availed themselves of the opportunity of spending several hours in the pleasant grove at the park. The cars will be run to a late hour to-night, and the largest crowds will probably be carried in the cool of the evening.

ROTTEN WATERMELONS.—The residents of the lower part of the city seriously object to several carloads of watermelons which are said to be rotting in cars on south Union street. The melons were brought here over the Virginia Midland Railway, and happened to strike this city during a glutted market.

PROPERTY SALE.—Messrs. J. T. Beckham and S. G. Brent, attorneys in fact for the heirs of the late R. R. Fowle, have sold the valuable farm at Franconia station, Fairfax county, on the Washington Southern Railway, containing about 144 acres, to Mr. William E. Clarke, of Washington, for \$3,000.

CALL ACCEPTED.—Rev. S. Glaser, of Syracuse, N. Y., has accepted the call extended by the German Lutheran Church of this city and will be installed September 10th.

PABST BEER for sale by ROBERTSON & BRO., 709 King street.

FANCY ELGIN BUTTER constantly on hand at H. C. WALLACE'S.

LOCAL BREVITIES.

A steam peanut roaster is one of the attractions on King street.

Lucy Jane Hodge has sold to Mary Sprigg, one-eighth interest in a house and lot on the southeast corner of Washington and Gibbon streets, for \$240.

Mr. Wm. Demaine has tendered his span of white horses to the Hydraulic Fire Company for the purpose of pulling their hose carriage in the centennial parade in Washington next month.

James Dudley, colored, an old resident of the city, a member of the G. A. R. and in reconstruction days a prominent ward politician, has obtained a permit to enter a Washington hospital, he being at present in a bad state of health.

Jake Davis, colored, yesterday assaulted Mrs. William Munday, a respectable white woman of 55, living near Greenwood, S. C. After Davis bound and gagged the woman he was driven away by a yard dog. He was hunted down, captured, fully identified, and then tied to a tree and shot to death by a hundred citizens, white and black. Davis accepted his fate stoically. This is his second crime of this kind, but, as the woman assaulted on a previous occasion was disreputable, he went unpunished.

The Green Bag, a magazine for lawyers, for August, has been received from its publishers in Boston. Its contents are: The English Court of Criminal Appeal, Bracien and his Relation to the Roman Civil Law, A Serious Problem, Obsolete Punishments, The Supreme Court of Appeals of Virginia, The Case of the People vs. the King, Legal Reminiscences, The Lawyer's Easy Chair, and Editorial Department.

About one thousand New York longshoremen are on strike.

BROWN'S IRON BITTERS cures Dyspepsia, Indigestion & Debility.

MONETARY AND COMMERCIAL.

NEW YORK, AUG. 22.—The belief is steadily growing in Stock Exchange financial circles that the Sherman silver law will be repealed. This coupled with the constant arrival of gold has created quite a little bullish sentiment at the board and operators are more willing than for some past to buy stock. As a result the market after the opening of business began to harden and prices rose $\frac{1}{2}$ to $\frac{3}{4}$ per cent. Subsequently there was a reaction of $\frac{1}{4}$ to $\frac{3}{4}$ per cent. The market at 11 o'clock was steady.

Alexandria Market, August 22. There are but few changes to report in the wholesale markets to-day. Flour is still dull. Wheat is firmer; sales of fair to prime 58 to 63, other sorts 56 to 58 as to condition. Corn 51 to 53. Rye 43 to 47. Oats 31 to 35, latter for white. Butter, Eggs, Onions and all kinds of produce are in very good demand with light receipts. Provisions are stronger. Hay and Millfeed are quiet.

BALTIMORE, Aug. 22.—Flour dull and unchanged. Wheat, No. 2 red, Sept. 65 $\frac{1}{2}$ ¢; No. 2 red, Oct. 65 $\frac{1}{2}$ ¢; No. 2 red, Nov. 65 $\frac{1}{2}$ ¢; No. 2 red, Dec. 65 $\frac{1}{2}$ ¢; No. 2 red, Jan. 65 $\frac{1}{2}$ ¢; No. 2 red, Feb. 65 $\frac{1}{2}$ ¢;
